Services

HIV Transmission has changed in East Tennessee.

Choice Health Network is uniquely positioned to provide services and on-site navigation through the continuum of care with people entering through harm reduction and transitioning to medical and social services.

Our mission is to provide compassionate care to promote and inspire wellness across Tennessee and beyond.

IMPACT OF RYAN WHITE INSURANCE ASSISTANCE PROGRAM FUNDING

== \$8,208,276 saved in HIV treatment costs for CHN clients during 2024

PREVENTION & HARM REDUCTION

HIV tests performed

Hep C tests performed

Condoms distributed

Clients prescribed PrEP

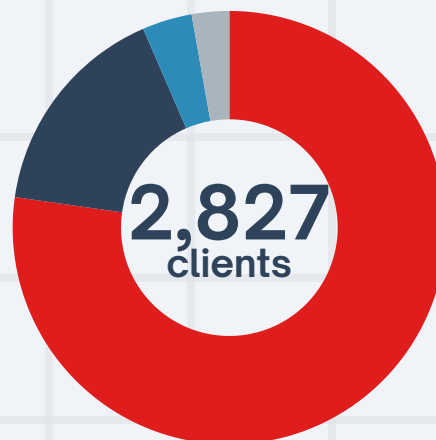

Harm Reduction Clients

83,054 doses of Naloxone (Narcan) distributed - more than any other community-based organization in the South*

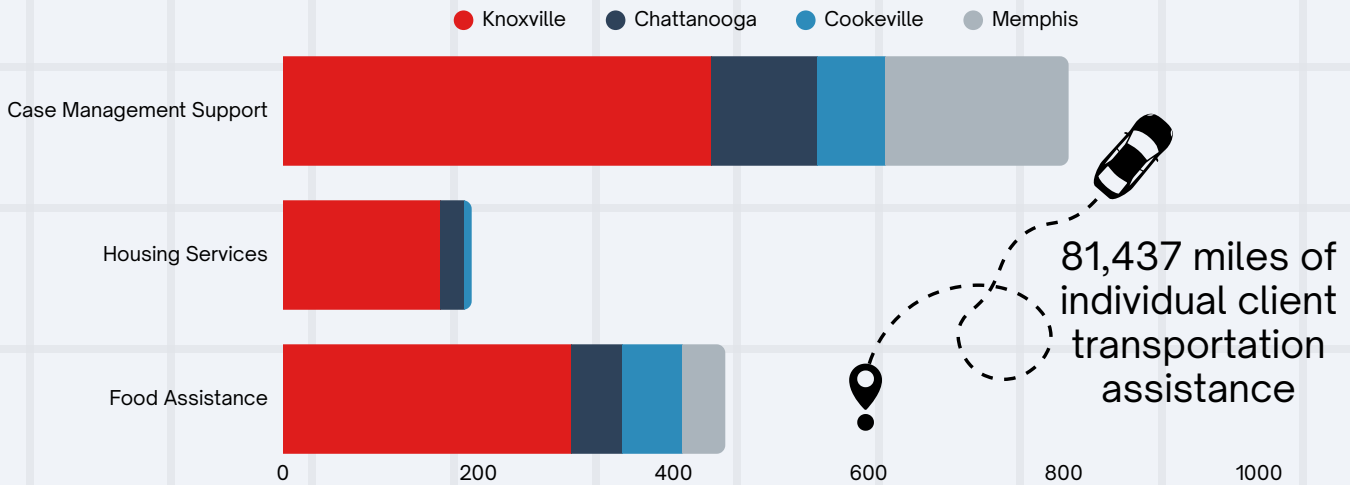

2,625 reported overdose reversals

*CHN distributed more naloxone doses than any other community-based organization (CBO) in the South region of the United States in 2023. (National Survey of Syringe Services Programs)

- Knox County
- Cocke County (Mobile Outreach)
- Campbell County (Mobile Outreach)
- Johnson City (Mobile Outreach)

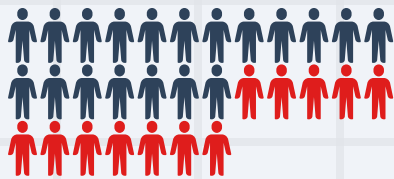

MENTAL HEALTH, CASE MANAGEMENT & SUPPORTIVE SERVICES

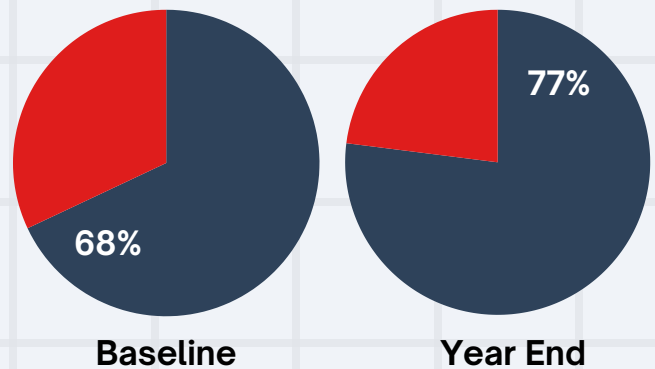

41 clients received mental health counseling

32 clients equipped with rental and/or utility deposits to secure stable housing

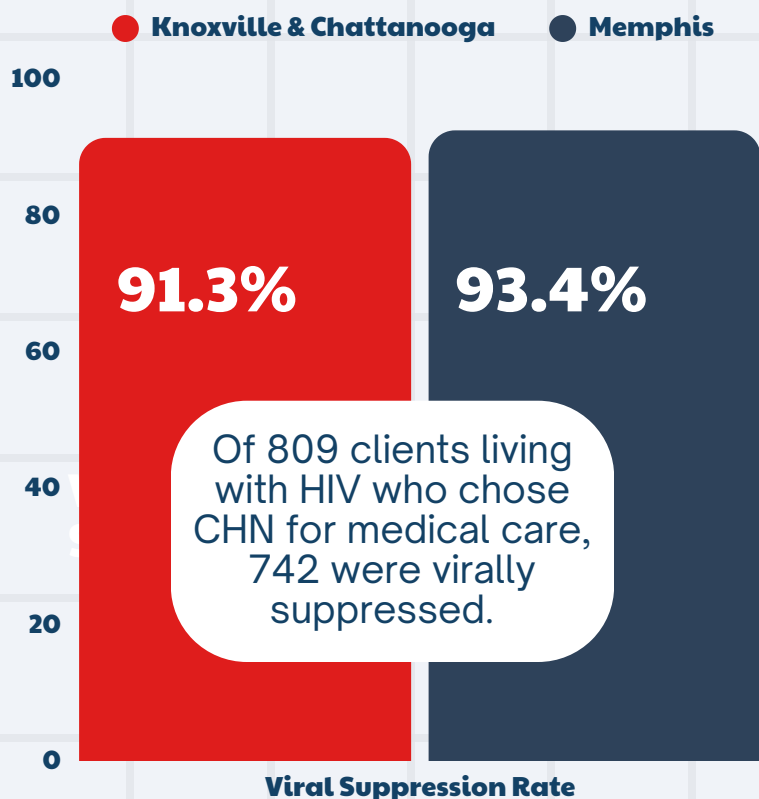

61% of clients who received motel assistance through Housing Opportunities for Persons With AIDS (HOPWA) transitioned to permanent housing

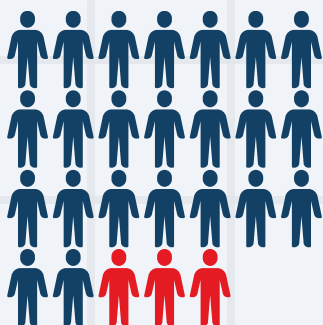

Viral suppression rate of clients who received HOPWA motel assistance

MEDICAL CLINIC AND PHARMACY SERVICES

CHN Rapid Start/Restart

Year 1 Results:
23 of 26
CHN Rapid Start/Restart
Clients Virally Suppressed

The goal of the Rapid Start/Restart program is to allow patients to begin taking ART (antiretroviral therapy) as soon as possible after an HIV diagnosis, often the same or next day, when allowable - drastically reducing the traditional 2 - 4 week intake/enrollment window before pharmaceutical intervention usually begins.
